Wanted-A name for the state fair festivities-must be brief, bristling, bril-

As prognosticator of surplus revenue Secretary Carlisle is not the brilliant success we would all wish him to be.

The duration of the Bismarck annual birthday celebration increases with the number of years which the anniversary represents.

It is evident that there are men in this bailiwick who covet the official shoes of the sheriff and clerk of the district court.

The merchants of Omaha will soon feel the beneficial effects of the late a reign of dollars.

That petition praying the mayor and city council to order the fire department to flush the streets may now be indefinitely laid away.

An expert is investigating the ventilation of the United States senate. There are more things than one about the United States senate that are sadly in need of thorough ventilation.

We commend the suggestion of one of our subscribers that householders in Omaha put forth a little more effort to make their houses and lawns present the most attractive appearance.

subjects now claiming the attention of our citizens. The progress of initiatory steps now being taken are watched with more than ordinary interest.

Blsmarck will have an opportunity to reciprocate some of the thoughtful attentions of the German people and his sovereign if he lives long enough to participate in the festivities of Emperor William's next birthday celebration.

Those long delayed World's fair diplomas are expected to make their appearance soon. It is to be hoped that the authorities in charge will give the public ample notice, otherwise the shock might lead to serious complica-

Why should the salary of the plumbing inspector be raised from \$1,500 to \$1,800 at the present time? The lower house of the legislature last week passed a bill for this purpose. We should like to hear one single word in its defense.

The Newby pension case has been supreme court, of the conviction of the impostor. This ought to put an effectual quietus on attempts at impersonating deceased veterans of the war for the sake of their pensions.

The days of the clumsy though use ful device known as the supreme court commission are distinctly numbered. A constitutional amendment is to be submitted at the next general state election to provide for the enlargement of the supreme court. With an enlarged supreme bench the people will cheerfully dispense with the services of the supreme court commissioners.

The assallant of Li Hung Chang has already been convicted and sentenced to life imprisonment. Japan is evidently not yet up to the most advanced civilization in the matter of dealing with criminals. In this country the prisoner would not have been arraigned for weeks, and perhaps months, and he would have not less than two longdrawn trials before beginning to pay the penalty of his misdeed.

The stories of fraud practiced on the local relief committees in South Dakota probably have counterparts in almost every county in which retief has been distributed on a wholesale scale. But wherever impostors are detected, as they have been in a number of cases, they ought not to be shielded from exposure. If they had no compassion on those actually in want and for whom the charitable contributions were intended, the authorities ought not to be tender about bringing them to account. The only way to discourage fraud under these circumstances is to make examples of the guilty parties. If self-respect will not restrain the impostors, fear of prosecu-

message and presents them in dignified, logical and unanswerable form. He points out wherein the proposed law differs from the law as it exists and insists that in every instance where a change is made the change is not for the better, but for the worse. The vetoed bill is an insidious device for transferring the control of the fire and police departments to a partisan board. whose power is to be exercised by two men, whereas the membership in the present board is divided between representatives of three different political parties. The vetoed bill excludes the mayor from all participation in the control of these departments, although by virtue of his office he is head of the police officials their duties as conservagovernor, it takes away from the executive of the city a power and authority properly attaching to that office. In the reduction of the number of fire and police commissioners we have another element of weakness in the removal of an important safeguard against corruption and bribery.

It is, however, through the altered method of appointing the commissioners that the coterie of schemers behind the bill had hoped to accomplish their deep-laid purpose. Although the governor is made a member of the appointing board, the real power is given to Churchill and Russell. The governor is a proper official to act as a figurehead on the appointing board, but not to bear the responsibility now entrusted to him of making the appointments himself. This alone would have afforded ample justification for a veto message. That there is no argument for the bill in the claim that there should be a change in the personnel of the present commission the governor shows by pointing out existing provisions by which abuses may be easily remedied. Furthermore, the governor is under the law responsible for the conduct of the board he creates, and complaints against his appointees inrainfall. To many of them it will mean sure speedy investigation. If there is reason for changing the composition of the board the governor stands ready to do his duty.

To any one not blinded by sectarian prejudice or bound by prearranged compact the statement of Governor Holcomb would be absolutely convineing. The plotters, however, were not entirely unprepared for a veto and succeeded in having its consideration made a special order for Wednesday afternoon. From now until then they will try to move heaven and earth to rake up enough votes to count the necessary three-fifths demanded by the constitution to override the veto. Whether they will succeed or not will depend, in a large measure, upon the attitude of the business men and citizens of The Douglas county electric tramway Omaha. By showering protests against project is one of the most important the infamous Churchill-Russell bill lature they may force the latter to respect the rights and wishes of the people who would be affected by this legis-

We have not captured, nor is there any sign that we are likely to capture, any foreign market, a great deal of labor formerly employed in the manufacturing industries is idle or has found other kinds of employment, and the price of all labor in such industries is very much lower than it was three years ago. An experience of six months with this democratic tariff has demonstrated that as a revenue measure it is an utter failure and there is no reason to expect that there will be a different result in the future. It appears that the only hope of bringing the receipts of the government up to the expenditures is in the proceeds of ing people. This will make it quite infloult to enforce the German embargo difficult to enforce the German embargo against American meat products. The German market may be reached indirectly through Belgian importations.

Perils of the Bachelor Tax.

It does not occur to the men who are proposing a tax upon bachelors in western states that the plan is in direct opposition to the theories of the new woman. Those theories have as their cardinal principle the perfect legal and social equality of the sexes. perfect legal and social equality of the sexes. Now, to tax bachelors and not tax unmarried women seems to hit the equal-rights movement squarely between the eyes. The complement of the Illinois bill provides that the money derived from the tax shall be devoted to a home for old maids. To be consistent with the theories referred to, it ought not only to provide a tax on spinsters, but that the money derived from the source be given to support a home for old source be given to support a home for old bachelors. And the new women of Illinois ought to emphatically protest against this usidious attack upon their cherished printiples.

An Awkward Explanation.

The publication of the full text of Great Britain's demand upon Nicaragua shows was some ground for the com plaint that this country was not properly considered or was discriminated against, or, to put it blunily, was snubbed in the matter of the composition of the arbitra-tion commission. Will Have a New Trial at Cace,

ATLANTA, Ga., April L.-Judge Newman of the United States court this afternoon sustained the demurrer in the case of the United States against Mitcheon, McIntyre, Gaber and Gilbert, charged with conspiracy against and the murder of Henry Woolley on 19th of April, 1891, for reporting their illicit distilleries and overruled six of the seven counts in the governor's bill of indict-A new trial will be prepared and the trial will proceed tomorrow. The ground for the court's ruling was that the bill did not state the specific right which Woolley was enjoying under the constitution of the United ates, under which the conspiracy was com-

Light Months from Liverpoot to 'Prisco. SAN FRANCISCO, April 1 .- The long overus British ship Moresby has arrived twentyfour days from Liverpool. The cause of her tention was a succession of stormy days in the south Atlantic, in which she lost her foremast, sprung the main topmast and main rigging, besides having her upper works stove The Moresby put into Montevideo on the 27th of January while skilled workmen who had been sent from England were repairing

TRITE TAKE-OFFS.

Indianapolis News: "This century," said the cornfed philosopher, "will be remem-bered chiefly as the era of the bloomer and the bounce,"

Truth: Forty-ninth Friend (since break-fast time)-My, Mr. Morton, what a dread-ful cold you've got. What are you taking for it? Mr. Morton (hoursely)-Advice, Chicago Tribune: "How far can you go on your machine, Jimmy?" inquired his

"I can't go outside of the county with it," replied the boy with the new bleycle, "It isn't all paid for yet," Philadelphia Inquirer: Bashley-Some-body has written a book, "Two Women and a Fool," Mashley-That's the stuff, A fool for luck, every time.

Washington Star: "Is your husband out of politics?" asked the visitor. "Yes," replied the wife of the ex-states-man, "I think he must be. Every time I mention an election he says he's not in it."

Harper's Young People: "What are they going to call your new brother, Jack?" "Oh, I don't know—Jack, I guess." "But that's your name." "That doesn't make any difference. It was papa's before I had it. Pa and ma have a way of makin' us boys use up old things." Detroit Free Press: The Major-Pd make

THE INCOME TAX.

Detroit Free Press Oh, for a chance to pay the tax;
To whack up a little two
Per cent on a large and plethoric sum,
As some other people do.

Oh, for an income big enough
To divide with Uncle Sam;
A man that would kick on a snap like that Is altogether a clam.

Oh for enough to be enough To make all the poor folks turn nd say as they saw me on my w "That party's got money to burn." Oh for slathers and sends of cash,

Like the moneyest moneyed men! Yould I object to 2 per cent tax? Well, hardly. I'd whack up 10. th, for a chance to pay the tax-But why run the gamut through? At present I can't pay 3 per cent On a board bill overdue.
